

# ***THE BOM***

"Best Overall Method" Cleaning System

*"THE BOM" is so easy to use - you will love it.*

Cleans, polishes and protects cars, trucks, motorcycles, boats and water crafts, appliances, windows, mirrors, computer screens, big screen TV's and so much more.

Don't waste your money on a multitude of cleaners, polishes and waxes. **"THE BOM"** is all you need to care for the paint, clear coat, chrome, glass, plastic and rubber. From bumper to bumper, **"THE BOM"** really gets the job done.

*Adds depth to the finish.*

*Reduces the appearance of fine scratches.*

*Resists bird droppings, acid rain stains, fingerprints, road tar, tree sap and bug guts.*

*Car/motorcycle stays cleaner looking longer.*

*Makes your car/motorcycle look showroom new.*

*"THE BOM" is safe and recommended for use on plexiglass, lexan windshields and tinted glass.*

***One 32 oz. bottle of "THE BOM" is enough to clean, polish and protect 30 to 50 cars or 100 motorcycles. THE BOM IS FAST AND EASY TO USE ON ANY MOTOR CYCLE.***

***How to use:***

With the BOM just apply a small amount to a damp cloth or chamois and wipe over the surface to remove the dirt and grime and immediately buff with a cotton cloth to an incredible shine. You don't have to wash first and no more waxing. No more picking wax out of the cracks for months. You can do your car or bike from front to back inside and out on any smooth polishable surface. Carry a small amount in your glove box or on your motorcycle and always keep your machine looking showroom perfect and beautiful. No more buckets, hoses or sponges. ***No more scratches and swirls, and again no more waxing.***

***CLEANING AND POLISHING THE PAINT AND CLEAR COAT.***

If your motorcycle is very dirty, you may want to hose it off first. Never apply "THE BOM" in the direct sun or to a hot motorcycle. Place your bike in the shade. If it is hot, hose the motorcycle down with cool water. You will need a couple of cloths, one of them should be wet. (We recommend that you use a "THE BOM" wet for cleaning and "THE BOM" micro fiber cloths for drying and polishing). You can apply "THE BOM" directly to the finish or spray it onto the cloth. Only clean sections of your motorcycle at a time. Use the wet cloth to wipe the area you are cleaning. "THE BOM" will encapsulate the dirt and the wet cloth will remove the dirt without scratching the finish. Following directly behind with the dry cloth. Wipe over the finish rapidly, drying and buffing at the same time. Flip the dry cloth over as needed.

***CLEANING AND REMOVING BUG GUTS***

Spray "THE BOM" directly onto the affected area, use a damp cloth to move the product around, removing the bugs. You may need to repeat these steps a second time to remove bugs that have been there for awhile.

## ***CLEANING AND REMOVING ROAD TAR***

Spray "THE BOM" directly onto the affected area. Let sit for 5 to 10 minutes. Using a damp cloth begin to remove the tar. Repeat these steps 2 or 3 times until the tar has been removed. Do not use any type of abrasive cleaning pad to remove the tar.

## ***CLEANING GLASS, WINDOWS AND MIRRORS.***

You will need to have two cloths, one wet and one dry. Spray a small amount of "THE BOM" onto the wet cloth. Move the product over the surface, flipping the cloth as needed. Follow right behind with the dry cloth. Dry and buff at the same time.

## ***CLEANING AND POLISHING MOTOR CYCLES***

"THE BOM" is safe to use on every part of a motorcycle. Follow the same steps above. **THE BOM IS GREAT FOR EVERY PART OF YOUR MOTOR CYCLE.**

**Product purchase to one 32 oz. bottle of "THE BOM" EURO 33,50**
